### MARCH 31, 2014 DEBRIS REMOVAL UPDATE

**AUGUSTA, Ga., April 1, 2014**– The contractor continues to work on the final stage of debris removal and has completed Zones 1A, 1B, 1C, 1D, 2C, 3, 3C and 5. Crews are currently working in Zones 2A, 2B, 2D, 3A, 3B, 3D, 4A, 4B, 6A, 6B, and 6C. Work will continue to move south, removing the final debris along each and every street until complete. During this time, the contractor will be deploying tremendous resources into these areas and closing out streets. Once a street is complete, the city’s monitoring contractor will perform an inspection by a quality assurance supervisor to insure the street is clean and close it out. Once, this has been performed and the street is declared complete, **the contractor will not return.**

It should be noted that during the close out period, some smaller loose piles of material that cannot be collected by large contractor equipment should be placed into brown yard bags (also known as kraft bags) for normal collection. These will be picked up by your normal solid waste collection.

It is also, important to remember that as the streets are closed and deemed complete, normal solid waste collection and rules for collection will apply:

- Items should be less than 5-ft in length.
- Loose debris should be containerized in kraft bags or personal containers.
- Yard waste in plastic bags will not be collected.
- Yard waste is limited to 10 cubic yards.
- Items should be able to be lifted and loaded by man power only
